

Nirmala Sundarappa

Projects and activities — prioritized for customer and external-developer impact

Scope. This curated inventory is based on 50 Confluence search matches. It leads with direct customer engagements and external developer programs, then lists developer enablement and supporting internal references. Incidental name-only mentions are excluded.

Priority: customer and external developer engagement

1. GDP for Java 2024

Nirmala-led Global Developers Program for Java: selected customer and developer feedback, roadmap review, 23ai and open-source demos, polls, feature requests, and Q&A.
